

BUILDING NETWORKS

Suppliers of Earth Observation derived geo-information can co-ordinate and exchange expertise as well as building networks and partnerships with members of the oil & gas industry. It will allow members to respond to demand requests and make commercial offers easier. Prior exchange will allow the oil and gas industry to select more targeted products.

The Portal allows users with common interests to come together and exchange their knowledge and information. Networks can be within industry sectors, across geographical boundaries, or around common technical interests. All the possibilities are open using the tools provided by the Portal.
