

EO Services contributing to the SDGs Forest Monitoring & Land Tenure Security

- **Users:** Public authorities (forest management, spatial planning, rural development), supranational institutions, NGOs, private sector, Multilateral Development Banks
- **Challenge:** End Deforestation and Restore Degraded Forests. Knowledge about deforestation helps to secure land tenure, being key economic resource inextricably linked to access to, use of and control over productive resources such as timber
- **Initiative:** Continuous, high-resolution stocktaking and forest change assessment monitoring (esp. deforestation) differentiated to land tenure
- **Results:** Assessing the effectiveness of World Bank microcredits to community forest management in the Yoro province, Honduras
- **Service provider:** GeoVille
- **References:** World Bank Contract 7149944

Target 15.2: By 2020, promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation globally.
Indicator 15.2.1: Sustainable forest management
