- On 8-9 November, EUSPA will present its latest funding and research opportunities, including the soon-to-be-launched Horizon Europe Space Call at the Space Downstream Innovation Days. The event will take place both in Prague and online, learn more here.
- 14th European Space Conference - Save the Date 25-26 Jan 2022. External
- 2nd CASSINI Hackathon is almost here and will tackle the challenge of connecting the Arctic with European satellite technologies. It is set for 5-7 November simultaneously across 10 different locations. From Croatia to Iceland, this pan-European project is set to make an impact in the Arctic.

Information extracted from EUROGI

- New and open funding opportunities:
 - Interoperability community (Deadline 19/10) [\[Read here\]](#)
 - Establish the grounds for a common European energy data space (19/10) [\[Read here\]](#)
 - Scalable privacy-preserving technologies for cross-border federated computation in Europe involving personal data (Deadline 21/10) [\[Read here\]](#)
 - AI for cybersecurity reinforcement (Deadline 21/10) [\[Read here\]](#)
 - Feasibility Study, Design and Prototype Development for a Mapping Platform on COVID-19 Therapeutics in the EU (Deadline 29/10) [\[Read here\]](#)
 - NEW! Emerging Risks Analysis Platform (ERAP) (Deadline 03/11) [\[Read here\]](#)
 - Horizon Europe Project: Machine Learning Application Approval (Tender released by European Union Aviation Safety Agency, deadline 04/11) [\[Read here\]](#)
 - Terrorism and other forms of serious crime countered using travel intelligence (Deadline 23/11) [\[Read here\]](#)
 - Enhanced assessment of disaster risks, adaptive capabilities and scenario building based on available historical data and projections (Deadline 23/11) [\[Read here\]](#)
 - Improving cyber defence and incident management with artificial intelligence (Deadline 09/12) [\[Read here\]](#)
 - Frugal learning for rapid adaptation of AI systems (Deadline 09/12) [\[Read here\]](#)
 - Reinforcing digitalisation related know how of local energy ecosystems (Deadline 05/01/22) [\[Read here\]](#)
 - NEW! Canarias pre-commercial procurement on big data for personalised medicine (Deadline TBD) [\[Read here\]](#)

Policy initiatives, announcements and briefings (all NEW):

- Commission launches EU missions to tackle major challenges [\[Read here\]](#)
- Questions and answers: EU missions [\[Read here\]](#)
- MEPs debate AI and the data strategy [\[Read here\]](#)
- Trade and Technology Council: Inaugural meeting agrees on important deliverables and outlines areas for future EU-US cooperation [\[Read here\]](#)
- ENISA's New Tool to secure the Digital Future of SMEs [\[Read here\]](#)
- EU and the Western Balkans launch a joint strategy to strengthen cooperation in innovation, research, education, culture, youth and sport [\[Read here\]](#)

Open Public consultations:

- NEW! Digital services integrating different transport modes, deadline 02/11 [\[Participate here\]](#)
- Policy programme - Digital Decade Compass, deadline 23/11 [\[Participate here\]](#)
- NEW! Digitalising the energy sector – EU action plan, deadline 24/01/22 [\[Participate here\]](#)

Newspaper articles/publications/reports (all NEW):

- EU countries green light new data governance framework [\[Read here\]](#)
- Europeans strongly support science and technology according to new Eurobarometer survey [\[Read here\]](#)
- Promoting industry-academia knowledge exchange through co-creation teams [\[Read here\]](#)
- MEPs demand strict rules over AI applications in criminal matters [\[Read here\]](#)

- PostDoc Position in AI for Remote Sensing at ETH Zurich, Switzerland
- Post-Doc Imagery Analyst for Albatross Project at the British Antarctic Survey, United Kingdom
- Senior scientist for quality assurance in Earth observation at the National Physical Laboratory, United Kingdom
- Higher Scientific Officer for Geospatial Modelling at the Agri-Food and Biosciences Institute, United Kingdom
- Geospatial Data Engineer at Radiant Earth Foundation based in either the USA, Ghana, Ivory Coast, or Senegal
- Remote Sensing Specialist for Forest Monitoring Tasks at GAF AG, Germany
- Consultant Space Sector at SpaceTec Partners, Germany
- Remote Sensing Project Manager at Space4Good, Netherlands
- Senior Project Manager for Forest and Climate Change at GAF AG, Germany
- Project Task Manager for EO-based Urban Planning at GAF AG, Germany
- PhD positions for geospatial analytics, remote sensing, GeoAI, human mobility, social sensing, hazard modeling, and human-environment interactions at the University of Arkansas, USA
- PhD position for forest ecology and remote sensing at University of Florida, USA
- PhD position for remote sensing of ecosystem resilience at the University of Tasmania, Australia
- PhD position for hyperspectral drone remote sensing at the University of Tasmania, Australia
- PhD position for remote sensing for tracking of bulk cargo at the Arctic University of Norway, Norway
- PhD position for 3D point cloud segmentation at Helmholtz-Zentrum Dresden-Rossendorf, Germany
- Postdoc for remote sensing and crop water productivity at IHE Delft Institute for Water Education, Netherlands
- Postdoc position for forest management and ecology at the University of Florida, USA
- Postdoc position as imagery analyst in the Albatross Project at British Antarctic Survey, United Kingdom
- Postdoc position for high resolution remote sensing for Hawaii Decision Support at the the ASU Center for Global Discovery and Conservation Science, Hawaii, USA
- Postdoc position in the Carbon Mapper Mission Science Applications Team at the Arizona State University, USA
- Earth observations processing system infrastructure software engineer at Spire Global, Luxembourg
- Earth observations calibration/validation analyst at Spire Global, Luxembourg
- Remote sensing analyst (general EO scientist) at Spire Global, Luxembourg
- Remote sensing analyst (agronomist, crop modeler) at Spire Global, Luxembourg
- SAR data specialist at Spire Global, Luxembourg
- Machine learning engineer / data scientist at Spire Global, Luxembourg
- Geospatial data engineer at Radiant Earth Foundation based in either USA, Ghana, Ivory Coast, or Senegal
- Multiple faculty positions for radio-frequency systems at the University of Colorado Boulder
- Researcher / lecturer for deep learning on UAV / on-board and cloud computing for UAV mapping at the University of Twente, Netherlands
- Research associate for forest cover change monitoring at University of Leicester, UK
- Development officer for Earth observation at IGN FI, France
- Research leadership for the Carbon Mapper Mission Deputy Science Team Leader at the Arizona State University, USA
- Project manager for Earth observation at Thales, Portugal
- Experienced remote sensing project manager at Space4Good, Netherlands
- Product manager for Earth intelligence at Spire Global, Luxembourg
- Research assistant professorship in coral reef ecology and management at the Arizona State University, USA
