                          ┌─────────────────────┐
                          │          3          │
                          │  Development phase  │
                          └─────────────────────┘
```

3
Development phase

3.1
Recommendations for the design of the structure

3.2
Coastal morphology

3.3
Evaluation of the efficiency of the structure

3.4
Metocean forecast to avoid down time

3.5
Monitoring of the Water Quality / turbidity during operations

3.6
Estimation of the Climate Change impact

3.7
Visibility during operations
