OTM-075: Creating basemaps in politically challenging regions

Creating basemaps in politically challenging regions

Challenge

	Challenge ID	OTM:075
1	Title	Creating basemaps in politically challenging regions
2	Theme ID	ON 5.1: Logistics planning and operations - Baseline mapping of terrain and
		infrastructure
3	Originator of Challenge	Onshore: OTM
4	Challenge Reviewer / initiator	DFID
	General description	Overview of Challenge
5	What is the nature of the challenge? (What is not adequately addressed at present?)	If you can't get government "on-side", then obtaining basemaps of an area can be very complicated, especially when aerial surveys are refused etc
6	Thematic information requirements	1. Obtain detailed topographic information, 2. Obtain detailed terrain characterisation, 3. Obtain detailed vegetation information, 5. Identify location and condition of transport infrastructure, 14. Obtain detailed imagery of the surface,
7	Nature of the challenge - What effect does this challenge have on operations?	Delay in developing / exploration activity
8	What do you currently do to address this challenge?/ How is this challenge conventionally addressed?	Aerial surveys, but these are often difficult to deploy if political will is not there.
9	What kind of solution do you envisage could address this challenge?	Imagery which can navigate around local bureaucracy would be useful
10	What is your view on the capability of technology to meet this need? – are you currently using EO tech? If not, why not?
