Hatfield-5102: Assess potential project site for historical use

Assess potential project site for historical use

Challenge

Shallongs						
Challenge ID:	HCP-5102		Originator:	Onshore: Hatfield		
Title:	Assess potential project site for historical use.					
Theme:	ON 5.1: Log	ON 5.1: Logistics planning and operations - Baseline mapping of terrain and infrastructure				
Consortium	Arup		Interviewed	Arup		
Lead:	Arup		Company:	Aup		
Geography:	ON.REG.00 - Generic onshore					
Challenge Description						
What is not possible / not adequately addressed at present?						
Identify historic land-use change, possible obstructions, contamination, and geohazards (river migration,						
flooding, slope instability etc.) due to previous site operations.						
What effect does this challenge have on operations?						
Identify hazards and risk register prior to construction to allow for mitigation strategy to be developed.						
Thematic inform	nation	Land use				
requirements:						
What do you currently do to address this challenge?						
How is this challenge conventionally addressed?						
Desk study research including review of historic archive data (topo maps, air photographs, satellite imagery), site						
walkover surveys.						
What kind of solutions do you envisage could address this challenge?						
Archive datasets - use of imagery of long historic time period.						
What is your view on the capability of technology to meet this need?						
Are you currently using EO tech? If not, why not?						
Already feasible, but archives of data sources are widely distributed and not widely known.						
Challenge Classification						

Challenge Classification							
Impact on Lifecycle ((4=high):)=none,	Climate / Topography / Urgency:					
Pre-license:	1	Climate class:	Generic climate				
Exploration: 0		Topographic class:	Not specific				
Development:	nent: 4 Seasonal variations:		Any season				
Production:	3	Impact area:	Environmental				
Decommissioning:	3	Technology urgency:	2 - Short term (2-5 years)				
Challenge Information Requirements							
Update frequency:	Snapshot						
Data currently used:	Aerial imagery, historical records, field assessments						
Spatial resolution:	patial resolution: Regional						
Thematic accuracy: Not specific							
Required formats:	Not specific	Not specific					
Timeliness (Vintage): Within six mo		onths					
Geographic extents:	License						
Existing standards:	None
