OTM-076: Understanding activity beneath the tree canopy

Understanding activity beneath the tree canopy

Challenge

	Challenge ID	OTM:076			
1	Title	Understanding activity beneath the tree canopy			
2	Theme ID	ON 5.1: Logistics planning and operations - Baseline mapping of terrain and			
		infrastructure			
3	Originator of Challenge	Onshore: OTM			
4	Challenge Reviewer / initiator	Exxon, Petronas			
	General description	Overview of Challenge			
5	What is the nature of the challenge? (What is not adequately addressed at present?)	In areas of dense tree cover, imagery alone does not provide us with the information that we need to acquire e.g. infrastructure, populations in the local area			
6	Thematic information requirements	12. Identify the presence of sub-surface or covered infrastructure,			
7	Nature of the challenge - What effect does this challenge have on operations?	Delays as on-the-ground surveys are required to assess ecological environments prior to any development activity taking place.			
8	What do you currently do to address this challenge?/ How is this challenge conventionally addressed?	On-the-ground surveys			
9	What kind of solution do you envisage could address this challenge?				
10	What is your view on the capability of technology to meet this need? – are you currently using EO tech? If				
	not, why not? Challenge classification
