

Table of Success Stories

Name	Summary	Thematic	Sector	Markets	Regions	Country
Oil tanker loading: river plume localisation	Mapping river plumes to assist oil tanker loading	Marine	ecosystem	O&G	Africa	Congo
Environmental impact assessment	Mapping of the coastal and marine ecosystem to support risk assessments to the environment	Marine	ecosystem	O&G	Europe	UK
Environmental Impact: Deepwater Horizon	Mapping with time the evolution of the oil spill and environmental impact after the deepwater horizon accident	Marine	ecosystem	O&G	N America	USA
Monitoring Dredging Plumes and Water Quality	dredge monitoring solution to satisfy regulatory requirements	Marine	ecosystem	O&G	Oceania	Australia
Oil spill disaster in the Gulf of Mexico	Monitor and predict the oil spill in case of disaster	Marine	ecosystem	O&G	N America	Mexico
Relief after Earthquake damage	assess damage from earthquakes	Disaster	earthquake	Emergency Services	S America	Chile
Satellite-based oil spill detection	monitor oil spills in European waters	Marine	ecosystem	Public authorities	Europe	Norway
Satellite based oil spill detection and impact assessment – The chronology of the Deepwater Horizon Accident	monitor oil spills	Marine	ecosystem	O&G	N America	USA
Improving waste management practices	improve waste management practices	Land	ecosystem	regional planners	Europe	Italy
Sea turbidity monitoring	monitor water quality	Marine	ecosystem	Construction	Global	
Shore Type Mapping used to reduce oil spill impact	Mapping of the shore to improve responsiveness in case of an oil spill	Marine	ecosystem	public authorities	Europe	Sweden
