# TerraSAR - X support to deforestAction in Borneo

Fig 1. http://replantingtherainforests.org)

Fig 2. Sarawak Borneo, establishment of oil palm plantation

**Users:**
EarthWatchers, Eco-Warriors, local communites & land owners, Institutions responsible for REDD+ MRV implementation

**Need:**

• Detect illegal forest activities

• Detect forest conversion to palm oil plantations

• Protect natural habitats of Bornean orangutans

**Challenge:**

• Large areas of rainforest are disappearing on a daily basis

• Permanent cloud cover & inaccessibility

• Independent reliable information

**Service provider:** Geodan & Astrium GEO-Information Services
