

eoSCAN (August 2018)

Market Watch "at glance"

August 2018

Market

- Airbus signs agreement with Vietnam, shares details of Thailand's THEOS-2
 - ARC Research Indicates Geographic Information Systems Are Moving to the Cloud
 - Copernicus Accelerator Looking for High-level Professionals as Mentors: Call for Experienced Mentors
 - CSST Taps Planet for Daily Imagery to Spur Economic Growth in New Zealand
 - Descartes Labs unleashes machine learning on space data
 - DigitalGlobe Appoints 2 Leaders to World Geospatial Industry Council
 - DigitalGlobe use AI to identify solar panels on 15 million buildings
 - Ecometrica Triples Profits in Record-Breaking Year
 - EO industry is hungry for Innovation, says François Lombard of Airbus Defence and Space
 - Esri Enters Into Memorandum of Understanding with World Bank
 - Esri Announces Living Atlas Innovations to Revolutionize Digital Twin Technology
 - Kongsberg Geospatial Concludes Final Trials of Drone Airspace Management System with Transport Canada, RCMP, and National Research Council
 - KSAT's new business unit dedicated to small satellites
 - MAXAR acquires neptec
 - Take your idea to the next level: Apply for the Copernicus Accelerator!
 - UrtheCast to Farm More Data Through Acquisition of Geosys Technology. UrtheCast to Purchase Geosys from Land O'Lakes
-
- [Big Data Analytics via Satellite, 2nd Edition](#)
 - Catapult's [Small Satellite Market Intelligence Report](#)
 - Europe Satellite-based Earth Observation Market Grow at a CAGR of 14.57% by 2017-2021
 - GEO Satellite Market Production and Growth Rate Analysis forecast 2018 to 2025
 - GEO Satellite Industry Technological Advancement to 2025 by Top Key Vendor Analysis
 - Geospatial Imagery Analytics Market by Type, Technology & Application - Global Industry Analysis, Trends and Forecast 2016 - 2024
 - Global Geospatial Imagery Analytics Market Analysis & Trends - Industry Forecast to 2027
 - Global Soil Moisture Sensor Market Analysis & Trends - Industry Forecast to 2027
 - Global Remote Sensing Satellites market will propel huge growth and share in near future
 - Global Beyond GEO Satellite Market Research 2018
 - Global Hyperspectral Remote Sensing Market 2018 Snapshot
 - Global CubeSat Market: Focus on Sizes, Subsystems and End Users - Analysis and Forecast: 2018-2022
 - Global Remote Sensing UAV Market 2018-2022
 - Maxar Technologies (NYSE:MAXR) Downgraded by Zacks Investment Research to Hold
 - NorthStar announces \$13 million in financing from Government of Quebec
 - NSR Report: Big Data via Satellite Value Shifts from Data to Analytics
 - Remote Sensing Satellite Market Outlook 2025
 - Remote Sensing UAV Market 2018-2023
 - [Satellite-Based Earth Observation: Market Prospects to 2026](#)
 - Satellite-based Earth Observation Market 2018: Worldwide Growth at CAGR of 13.69% by 2022
 - Satellite-based Earth Observation Market in Europe Market Latest Market Trends
 - Small Satellite Industry Projected to reach 6280 Million US\$ by 2025
 - UrtheCast Reports Second Quarter 2018 Financial Results
 - Venture Capitalist Trends for NewSpace Companies
 - 7,000 small satellites top be launched over coming decade
-
- Azerbaijan to launch another satellite this autumn
 - Brazil-China Satellite to Track Deforestation Slated for 2019

- Cyprus Aspires to Enter Space Arena with the ERATOSTHENES Centre of Excellence
- China launches high-resolution Earth observation satellite to monitor BRI
- China closing the satellite imagery capability gap
- China to build satellites and monitor 'every reef and ship' in South China Sea. China Builds Spy Satellites to Monitor South China Sea
- CubeSats from Malaysia, Bhutan & the Philippines deployed from the ISS
- Egypt To Complete Build Of MisrSat-2 Earth Observation Satellite Thanks To Chinese Grant
- Esri India Launches 'Innovation Hub' in Noida
- Finnish-Polish observation satellites will help in fighting against natural disasters
- India's Government teams up with Google to improve flood management
- Japan to launch new satellite-based system for disaster prediction
- Kenya's First National Crop Monitor Set to Strengthen Food Security. Kenya hosts regional resource mapping once again
- Pakistan launches Earth observation satellite to monitor disasters. Pakistan's First-Ever Remote Sensing Satellite PRSS-1Is Now Operational.
- Pakistan's First Remote Sensing Satellite Becomes Operational
- UK could develop independent satellite system after leaving EU
- SA Space Agency Wants To Develop Space Startups
- South African, Indian space agencies strengthen their mutual cooperation
- Vietnam to cooperate with Airbus in space industry development

- Alta Devices powers successful CubeSat mission
- Astro Digital reduces planned constellation by maximizing use of Europe's Sentinels & Landsat 8
- Data Applications Drive \$189 Billion in Satellite Capacity Revenues
- Discover the purpose and content of a Business Model
- Drones to monitor water quality
- Efficient and sustainable agriculture: apply for funding . UK announces competition to transform agriculture and food sector
- E-Governance plays critical role in advancing the field of disaster management, report argues
- Enhancing Smallsats with Big Satellite Power and Capacity Enabled by Made In Space
- EuroGeographics Pledges Support to Implement Global Geospatial Information Framework
- Hexagon Expands Content Program to Increase Coverage and Access of Air-Borne Imagery
- First GRSG Oil & Gas Workshop Hailed a Great Success
- For Euroconsult, coming decade to see nearly 6x increase in smallsat launches, 50% telecom
- GEANT and RedCLARA announce signature of BELLA contract for 25-year direct transatlantic
- Geotab Launches data.geotab.com, a New Tool to Help Enable Smart Cities
- Global Nanosatellite and Microsatellite Sales Market to Reach 1820 Million US\$ by 2025
- Growing Investments in Research and Development Activities to Boost the Global Nanosatellite
- Land Survey Equipment Market Geographical Analysis North America, Europe, Asia Pacific
- MSI Devices to Provide Wider Earth Monitoring Network
- New Esri Connection Microsoft Flow Offers Instant Mapping Sharing Field-Sourced Data
- Orbital Insight and Energy Aspects Partner to Shape the Future of Energy Industry Research
- Radar Earth observation startup Iceye books 2018/19 launches with aggregator ECM
- Satellite Bus Market is Likely to Experience 5.5% CAGR During 2018 to 2023
- Space-based applications drive fire early warning and monitoring systems
- SpaceChain CEO Brings Blockchain to the NewSpace Industry
- Svalbard Satellite Station
- SSTL to Launch GNSS-Reflectometry Ocean Wind Data Service
- Thales Alenia Space and Maxar Technologies' SSL Form Consortium to Further Design and Develop Telesat's LEO Satellite Constellation

- A Sentinel shake for early crop mapping
- Aeolus: Wind mapping satellite lifts off. Aeolus Satellite launched to improve weather forecasting for disaster management
- African researchers access of free data to use as part of a new agreement signed with the European Commission's Copernicus programme
- Agriculture a key beneficiary of EU Space Programme
- Apply for the open call to the Copernicus Accelerator
- Atos activates new Earth observation platform Mundi to consolidate disaster preparedness
- Before-and-after satellite pictures reveal extent of huge Portugal wildfire
- Berlin brown as satellite pictures show impact of heatwave
- Building sargassum & oil spill monitoring capabilities in the Caribbean and adjacent regions
- Data pipelines – Planet and Google Earth Engine
- Degradation of Wetlands Contributes to Social Instability and Insecurity
- Earth observation game-changer
- Earth observation and geospatial big data analytics for wildfire risk assessment
- EO industry is hungry for Innovation, says François Lombard of Airbus Defence and Space
- ESA promotes satellites to reduce impact of disasters in developing countries
- ESA's role in easing water scarcity
- Europe launches satellite to monitor the winds
- Five ISRO Satellites Saving Lives in Rain-Battered Kerala
