

eoSCAN (December 2015)

Market Watch "at glance"

December 2015

- €26.5 million for the Global Monitoring for Environment and Security (GMES) & Africa initiative
- Aerospace Industry Revolutionized By Smallsats + Startups—INNOspace Master Competition Underway
- Airbus Defence and Space to Provide Radar Instruments for Sentinel Satellites
- Canadian city selects Hexagon Safety & Infrastructure
- CartoConsult Partners with Proteus to Harness New Laser Scanning Technology
- DigitalGlobe Selects Raytheon To Assist w/WorldView-4 Mission
- DigitalGlobe, Inc. Completes Amendment to Credit Agreement
- DLR's Earth Sensing Imaging Spectrometer to be sent to the ISS at the end of 2016
- Eumetsat and CNES sign agreement for IASI-NG instruments
- European Space Imaging wins additional supply contract for the European Commission
- Esri and NASA Collaborate to Advance Cloud Access to Imagery
- Finns developing SAR radar microsatellites
- First Two PlanetiQ Weather Satellites To Be Launched By Antrix
- German research cooperation looking behind Indonesia's haze
- Google, FAO partner to make remote sensing data accessible
- Iceye Prepares Prototype Satellite for 2017 Launch
- In-depth report on Space and Agriculture by [United Nations Office for Outer Space Affairs](#)
- Japanese venture plans to put 50 Earth observation microsatellites in orbit by '22
- Japan Confident New Space Policy is Restoring Industry
- Japan Eager to Work with U.S. on Defense Space Programs
- MDA to upgrade ground stations for DigitalGlobe's WorldView-4 satellite
- Natural disasters affect 13 million people in Latin America and the Caribbean in 2015
- New Canadian Small Satellite Conference Caters to a Growing Demand
- PlanetiQ Inks Launch Contract With ISRO's Antrix Corporation PlanetiQ Inks Launch Contract With ISRO's Antrix Corporation
- Raytheon's Constellation Scheduling System selected by DigitalGlobe
- Russian, US Space Companies Seal Satellite Deal for First Time
- SAR EO Sats Will See A Colorful World
- Small satellites to pave way for future space-borne weather observations
- Thales Alenia Space Signs Contract To Build 2 More Sentinel Satellites for ESA
- Thales Alenia Space to build Copernicus Sentinel-1C and D satellites
- The "Radar Vision" Goes On – Two More Sentinel-1 Satellites
- Traders' New Edge: Satellite Data
- UAE Space Agency pushes for use of satellite data
- UrtheCast announces Wade Larson as CEO
- UrtheCast Secures \$27.6 Million Loan
- World Bank and European Space Agency to Use Earth Observation Systems for Sustainable Development
