

eoSCAN (June 2015)

Market Watch "at glance"

June 2015

- A New Era of Space Collaboration between Australia and US
- ADB Joins US-Led Partnership to Fight Climate Change in Developing Countries
- African Association of Remote Sensing of the Environment (AARSE) launched an online survey about information about the satellite sensors available in Africa
- Airbus Defence and Space conducts joint analysis with Spectrum
- Airbus Defence and Space and Hexagon Geospatial to provide access to data in smart applications
- Airbus, Thales Streamline Satellite Manufacturing
- Australia teams up with Europe's Earth observation community
- BDC, BMO invest \$22 mln to develop BlackBridge's next generation of satellites
- BlackBridge and EarthSTAR Bring RapidEye Imagery and Solutions to the People's Republic of China
- BlackSky Global Details Plans for 60 Satellite Earth Observation Constellation
- BlackSky Global Signs Content Partnership with AllSource Analysis
- Bluesky, Ordnance Survey Ireland sign mapping contract
- Climbing Throughput Needs Upholding Satellite Demand in Canadian Energy Sector
- Cooperation in satellite technology put Belgium, China to forefront
- DigitalGlobe to Present at the Barclays High Yield Bond and Syndicated Loan Conference
- EagleView Technology President and CEO Chris Barrow Named EY Entrepreneur Of The Year 2015 for the Pacific Northwest
- Egypt Mulls Buying Russian Satellite Images After EgyptSat 2 Loss
- ENVITIA to deliver DGS contract to UK Ministry of Defence
- EOMAP releases bathymetry data for South China Sea
- Eurospace is pleased to announce the release of Space Trends 2015 edition
- European Space Imaging High-Res Urban Challenge is now open for applications
- Ex-Google map guru joins Uber's team
- Free mapping data will elevate flood risk knowledge
- GAF AG Named "Earth Observation Company Of The Year"
- Harris Corp Completes Exelis Acquisition
- Heat Map of Europe's Real-Time Cities - Progress Towards Commercialisation
- KARI Sees Superior Forecasting on the Horizon with Harris AMI
- MDA to operate Canada's ground station infrastructure and expand its international business
- Nano Satellites Work with Ground Sensors to Offer New Eye on Disaster Relief and Agriculture
- Nano and microsatellite boom to lead space industry diversification
- NASA releases global climate change projections data
- Next generation climate instrument successfully calibrated in the UK
- Orbit GT and Aerodata International Surveys, Belgium sign Reseller Agreement
- PeruSat-1 Heralds New Era In Earth Observation
- PlanetIQ Pyxis Sensor's Success Could Lead to Larger GPS-RO Constellation
- PlanetIQ Teams Up with Blue Canyon Technologies to Build SmallSat GPS-RO Constellation
- PrecisionHawk Launches the Algorithm Marketplace; the First Data Analysis App Store for the Drone Industry
- Proteus Announces Exclusive Partnership with GeoSlam
- Satellite Imagery Tasking Now Available via SpyMeSat Mobile App
- Scottish Water aims to use Rezatec's peatland Earth Observation satellite techniques to assist in protecting and improving their source water catchments
- Scottish Government Grants up to \$2.9 Million to Spire
- Sentinel-1 brings radar remote sensing to new level
- Sweden signs up for Sentinel data
- SSTL's New Spacecraft Operations Center Goes Live
- UK signs contract for UAE DubaiSat image applications
- UrtheCast To Acquire the Deimos Imaging Earth Observation Business from Elecnor, S.A.
- UrtheCast Announces 16-Satellite Constellation Of Earth Imaging Sensors
- Thales Alenia Space Opens Subsidiary in Poland, Expands Presence in Europe
