

eoSCAN (May 2016)

Market Watch "at glance"

May 2016

Market

- Airbus Defence and Space to build Biomass – the European Space Agency's forest mission
- BlackSky inks US deal to enhance global decision-making
- Contract signed by Airbus, Space UK and ESA to deliver Biomass satellite
- Deimos-1 data of the contiguous United States, cloud-free, every month, now flowing to the UrthePlatform
- e2v selected to develop innovative CMOS devices for METImage weather satellites
- East View Partners with DigitalGlobe to Deliver GBDX Analytic Solutions
- Exelis Acquisition Boosts Harris Corp Revenues
- Google, FAO partner to offer environmental literacy for the world
- Google and Apple Might Soon Need a License for Satellite Mapping in India
- Harwell satellite data startup Rezatec plants £1 million seed investment
- Hexagon, Airbus sign contract to share content for Smart M.App
- How are small satellites changing the EO industry?
- Imagery market moving towards commoditization, says Kumar Navulur
- ORBIT Case In Point: New Opportunities For EO
- Optech Eclipse to be Introduced to International Audiences at GEO Business UK
- Planetary Resources' asteroid miners focus on Earth observation with \$21 million in new funding
- Sentinel Imagery Now Works Inside ArcGIS
- SCS AG Signs Earth Observation Contract with UrtheCast
- Small satellite market to hit 19.14% CAGR to 2021: microsatellite segment witness highest growth
- Southland's earth observation institute proposal shortlisted for \$25m government injection
- Technological Advances in Satellite Imagery Will Drive the Satellite-based Earth Observation Market in Europe Through 2020, Says Technavio
- UrtheCast's US\$65M Contract Amended so that Entire Amount now for Engineering Services
- UrtheCast Announces Invitation to Discuss Potential U.S. Partnership to Serve U.S. Government Customers and Plans to Issue Request for Information (RFI)
- UrtheCast's SAR Technology Passes Prototype Testing
- UrtheCast's satellite provides cloud-free data to US
- What is the Impact of Geospatial Information on Society and Economy?
- Yaogan-30 Satellite Is Launched By China
