

eoSCAN (November 2016)

Market Watch "at glance"

November 2016

Market

- Airbus Defence and Space Selects Google Cloud Platform as Preferred Partner
 - Deimos Imaging's acquisition is a strategic acquisition, says Wade Larson CEO and president, UrtheCast
 - DigitalGlobe and CyberCity 3D Agreement and Orbit Logic's Direct Access Facility Collection Planning System
 - DigitalGlobe announces the successful launch of WorldView-4
 - DigitalGlobe Completes Acquisition of The Radiant Group
 - EU's new space policy to invest in startups, boost private investment
 - ESA and SAP Launch New Service for Analysing Satellite Data
 - Hexagon Geospatial, DigitalGlobe Foundation partner for geospatial education awareness
 - Horizon 2020: apply for European funds for business innovation
 - Investments in open Earth observation data set to grow
 - MacDonald Dettwiler wins \$15M satellite radar system deal with Canada Dept of Defence
 - Planet Signs Landmark Deal with NGA
 - SAP aims to simplify innovation with update to HANA in-memory database
 - Spire CEO: We are Launching Satellites Every Month
 - Thales and Sener to develop optical payloads for space missions
 - Venture Capitalists Turning to Space for Their Next Big Returns
 - Verisk Analytics acquires The GeoInformation Group
-
- EO SAR Markets: Fast Out of the Gate
 - Global market for **remote sensing** products expected to reach \$13.8 billion by 2021
 - Nanosatellite and Microsatellite Market (Navigation and Mapping, Scientific Research, Power ...
 - New Study Projects 'Drone Market Boom' in Europe
 - NSR: Smallsat Market to More than Double Over Next Decade
 - NSR: In-Service M2M/IoT Satellite Terminals to Top \$2.5 Billion by 2025
 - Satellite-Based Earth Observation Market - Industry, Analysis, Growth, Demand, Outlook, , Market ...
 - UrtheCast Reports Strong Third Quarter 2016 Revenue and EBITDA Growth
 - UrtheCast takes \$7.8M impairment charge on ISS-mounted cameras
 - UrtheCast Named Fastest Growing Tech Company in Canada in Deloitte's Technology Fast 50
 - Top 5 Vendors in the Military Electro-Optical and Infrared Systems Market From 2016 to 2020: Technavio
 - The Canadian Space Agency Perspective from the 2016 Space Policy Symposium
-
- Airbus Defence and Space-built PerúSAT-1 delivers first images
 - Adani Group ties up with Israeli company to make UAVs
 - Aerial Imaging Market Forecast to Reach \$2.64 Billion by 2022
 - Black and white to high-def: GOES-R to change weather forecasting
 - Deal signed for FLEX's fluorescence finder
 - Defra plans to use its 'rich' datasets to save UK money on bovine TB and floods
 - DigitalGlobe Doubles Capacity with WorldView 4 Launch
 - DST DG honored for work in Earth Observation and Geospatial Information in Africa
 - EO Synergies To Be Developed Thru EARSC & Japan Space Systems
 - ESA and the Vatican join forces to save data in the digital age
 - ESA's Sentinel 2B spacecraft steps into the spotlight
 - ESA and Asian Development Bank join forces
 - EU pledges 400 million euros to boost startups
 - EuroGeographics and Kadaster, The Netherlands Renew Agreement to Provide Secretariat for UN-GGIM: Europe
 - GEONETCast to bring Earth observation data to more users
 - GOES-R revolutionary weather satellite launched into **Earth** orbit
 - Iran Signed Deal on Remote Sensing Satellite Signed by Russia
 - Japan's Himawari-9 Earth-Observation Satellite Successfully Launched
 - Launching Australia's new earth observation community plan
 - Luxembourg Government Invests \$27 Million in Planetary Resources
 - Malta to form part of European earth monitoring system
 - NASA to launch Earth-observation satellites
 - NASA to launch nanosatellites for studying changes on planet earth

- NASA small satellites set to take a fresh look at Earth
 - NASA seeks to purchase Earth science data from smallsats
 - Open **Earth observation** data now more accessible
 - Pakistan to launch remote sensing satellite in 2018
 - Proba-1 satellite still going strong after 15-year observation period
 - [Remote sensing data to reshape Australia](#)
 - SMOS on speed
 - Space agencies combine efforts for space hydrology
 - Survey on **Earth Observation** Capability for the African Union
 - USDA Grants \$20.2 Million for Food and Forestry Research and Development Projects
 - White House announces small satellite initiative
-
- [A brief history of weather satellites](#)
 - Aerojet Rocketdyne Supports Launch of WorldView-4 Commercial Earth Observation Satellite
 - Coke on OneWeb Investment: "It's Good Business"
 - CPI to Support New Generation Of Meteorological Satellites
 - Drones will become a huge feature as IoT is today
 - European Space Imaging reached again 100% collection success with VHR data supply to European Commission's CwRS Campaign
 - exactEarth to provide AIS services to MDA for the DND's Polar Epsilon 2 project
 - [FSS Operators: Benchmarks & Performance Review](#)
 - [GSA's 1st GNSS User Report](#)
 - Indian Govt. to launch app for monitoring illegal mining
 - Lockheed Martin, ULA launch advanced NOAA weather satellite
 - NASA Taps SpaceX to Launch Surface Water Survey Satellite
 - NAV Canada to Invest \$170 Million in Airspace Infrastructure
 - OHB SE: OHB Contributing to ESA's **Earth** Explorer Mission FLEX
 - [Prospects for Maritime Satellite Communications](#)
 - SAP and ESA Launch Earth Observation Analysis Service
 - UAVs to be a big part of Cloud, Big Data and IoT ecosystem
