

eoSCAN (October 2019)

Company Highlights

- Airbus and Sobloo announce finalists of Multi-Data Challenge within Copernicus Masters 2019
- Airbus Extends the WorldDEM Product Family
- Alliance for SAR Satellites Formed by KSAT and Synspecive
- Axelpace Corporation announces a partnership with Broadband Systems Corporation (BSC) to provide Earth Observation Data
- Delos Uses Satellite Imagery and AI to Help Homeowners in Wildfire Areas Get Insurance
- Discover 50 Ground-Breaking Business Cases at a Glance
- Digital intelligence driving agricultural innovation
- European Space Imaging continues to deliver 100% success rate of European Commission's CwRS Program
- How Satellites Revolutionize Oil Trading
- Iceye partners. ICEYE partners with ST Engineering to develop South East Asia markets for SAR imagery and analytics
- ICEYE high-resolution Spotlight radar imaging now commercially available.
- ICEYE's Spotlight Imaging Mode Enables One Meter Radar Imaging from Constellation Available Commercially
- Is there a commercial market for Keyhole-class imagery?
- Is Urthecast Corp common shares Canada(OTCMKTS:LFDEF) a buy?
- Maxar signs strategic agreement with Australian Space Agency
- New alliance begins between KSAT and Japanese SAR satellite startup Synspecive
- NRO awards imagery subscription contract to Planet
- The near real time services of KSAT
- Orbital Micro Systems partners with the Government of Kerala
- Planet satellites bolster FAO's geospatial toolkit
- Planet's Imagery Service Transitioned from the NGA to the NRO with a New Multi-Year Contract
- A Euroconsult Analysis: Examining government space budgets
- Cognitive Computing Market insights offered in a recent report 2017 – 2025
- Europe Motion Sensor Market –Industry Analysis and Market Forecast (2017-2024)
- High Altitude Platforms Market Scenario
- Hyperspectral Remote Sensing Market 2019 Global Share, Growth, Size, Opportunities, Trends
- GNSS Market Report is Published by the European GNSS Agency (GSA)
- Global Earth Observation Market 2019-2024
- Global Geospatial Solutions Market Outlook to 2025
- Industry Verticals: Remote Sensing UAV Market By Key Players-
- Latest Global Satellite Based EO Market Report 2019
- Market Insights of Satellite Remote Sensing
- Nanosatellite Market Size Growth Analysis and forecast Report | 2019-2025
- NSR Looks at Non-Imagery EO
- Remote Sensing Satellites Market to Witness High Demand During 2019-2025
- Remote Sensing Services Market Application, Future Growth and Detailed Insights
- Remote Sensing Satellites Market In-Depth Analysis & Marginal Revenue Growth 2019-2025
- Remote Sensing Technology Market is Booming At Higher CAGR of 10.9%
- Satellite-based Earth Observation Services Market Ongoing Trends and Recent Developments
- The European GNSS Agency (GSA) has published the 6th issue of its GNSS Market Report
- Trending Today: Geological Remote Sensing Consultancy Market Growth and Forecast till 2025
- \$741 Billion Geospatial Solutions Markets - Global Outlook Report 2018-2027
- Ecometrica signs up to UK SPRINT programme for international space data project. Edinburgh's Ecometrica joins £5m space programme
- Maxar's New St. Louis Facility with 48 New Hires Supports U.S. National Geospatial-Intelligence Agency Programs
- MOI Kick Starts The GMES And Africa Marine And Coastal Service
- NRO awards imagery subscription contract to Planet

- 'Ahead of the game!' UK space industry booming despite Brexit 'disruption' says Tim Peake
 - Australia Reboots Space Industry ... Australian Space Experts Focus on Small Sat Technology
 - Australian space experts focus on smallsat tech
 - Brazil and China launch sixth Earth observation satellite
 - China Launches 5 New Earth Observation Satellites into Orbit. China launches HD observation satellite . China launches new Gaofen Earth-imaging satellite
 - 'Complex and diverse': New Zealand Space Agency reveals Rocket Lab customers' satellite plans
 - Economic Free Zone for Foreign Companies Engaged in Space-Related Development Initiated by the UAE Space Agency
 - European space chief pledges to keep UK on board
 - European Parliament's Committee on Industry, Research and Energy (ITRE) heard how the European economy is increasingly dependent on space-based services during a presentation on 25 September 2019.
 - European Commission has opened a consultation on the draft orientation of the first two years of its proposed Digital Europe programme
 - European GNSS Agency(GSA) and World Geospatial Industry Council(WGIC) sign a strategic collaboration memorandum
 - Maxar Technologies Dives Into a Strategic Agreement with the Australian Space Agency
 - National Geospatial Agency Inducts Four into the GEOINT Hall of Fame
 - Orbital Micro Systems partners with the Government of Kerala to open the Global Earth Observation Centre-of-Excellence
 - Remote sensing network will advance safety and security applications in the Arctic
 - Singapore's Addvalue delivers data relay system to Capella Space
 - Thales Alenia Space begins construction of new facilities in Spain
 - Vietnam hosts Committee on Earth Observation Satellites Plenary
 - Vietnam to get Japan's first exported Earth observation satellite as part of disaster prevention initiative
 - Vietnam Contracts with Japan for a Satellite
 - Woerner optimistic about ESA's upcoming ministerial meeting
 - Why Australia needs to stand on its own in space
-
- Copper supply to be monitored from space
 - Discover New Ways to Match Drones and Satellites
 - DPR seeks better laboratory practice in oil industry
 - How next generation lasers are transforming business
 - European Commission and the European Investment Bank announced the launch of a "European Drone Investment - Advisory Platform" to support innovation and investment in drones.
- Read more**
- Kleos Space Incorporates as a U.S. Subsidiary to Qualify Sales Into U.S. Defense and Government Agencies
 - Naval Sensor (EO-IR) Market – Global Industry Scope and Opportunities Analysis 2019-2025
 - Maxar weaving components into new business ventures
 - Mega-Constellations...Accelerating the New Data frontier in space
 - QuadSAT to Collaborate with ESA to Ensure UAS Compliance with SOMAP for Satellite Operators
 - Stratospheric exploration craft aloft for more than a month
 - SpaceX plans to put more than 40000 satellites in space
 - Spire Announces AirSafe: The first ADS-B product from Spire Aviation
 - Thales Alenia Space expanding Spanish factory • Telesat completes \$500 million debt refinancing
 - **What City Planners Need to Know About Drones**
-
- A closer look at the SROCC: White Ocean, current conveyor belts, and more [>Read More](#)
 - AI for understanding and modelling the Earth System
 - ANGELS, CHEOPS and Egypt's TIBA-1 Arrive at Arianespace for Upcoming Launches
 - Big Data in Earth Observation
 - Blue Canyon Technologies Supports MIT CubeSat Mission
 - Blue Marble attends Surveying, Mapping, and Geoinformation Technology Equipment
 - Citizen science for sustainable development
 - Communication and Geospatial
 - Comparing Geoinformation and Geography Students' Spatial Thinking Skills with a Human
 - Copernicus Marine expertise contributing to the special IPCC report on the ocean and cryosphere (SROCC) and supporting information [>Read More](#)
 - Copernicus emergency satellite mapping is being used to tackle up to 100 active fires currently raging in Lebanon.
 - Countdown To GMES & Africa And Copernicus Marine Earth Observation Training 2019
 - COSME call for proposals "Clusters Go International" is open until 30 October 2019!
 - Copernicus Accelerator Presents 50 Pioneering Start-ups at Intergeo
 - The Galician Winery That Controls its Vineyards From Space
 - Data Visualization Survey
 - Detecting Illegal Homes in Downstream Dam Areas with Earth Monitor
 - [DGI 2020](#)
 - [Dry season increase in photosynthesis in Amazon rain forest](#)
 - Drought monitoring over Western Europe
 - Earth Observation Remains a Satellite Industry Growth Driver
 - Earth scientists push ambitious project to map Canada's geology
 - ESA contracts consortium for high-performance compute board
 - EU-backed plan inches closer to one-stop farming data hub
 - European Space Week 2019
 - First Earth Observation Satellite with AI ready for Launch
 - [GEOBIM 2019](#)
 - Iceberg larger than London breaks off Antarctic shelf
 - Iceberg-making submarines could possibly repopulate the Arctic with more ice
 - New and Expanded Capabilities for OceanFinder
 - New partnership harnesses Earth imaging for climate action
 - EU Plan To Boost Space Industry Draws White House
 - Europe's First AI-powered Satellite Mission is Ready for Launch

- EUMETSAT promotes international cooperation and prepares for launching next generation satellites to bring monitoring of weather and climate to a new era
- EUMETSAT's Director General Delivers International Cooperation Message at Meteorological Conference
- Event seeks to stimulate earth observation sector in South Africa
- Farewell from ESSO
- GEO Data and Knowledge Week 2020
- Geospatial World Readership Survey
- [Geospatial World Forum](#)
- GI_Forum Symposium 2020 invites Call for Papers
- GNSS Market Report from the European GNSS Agency (GSA) has been downloaded over 1,000 times
- GNSS receivers and drone technology are being used in a coastal monitoring programme run by the UK Environment Agency.
- GSA and the World Geospatial Industry Council (WGIC) have signed a memorandum covering cooperation to promote the combined use of geospatial technology and EGNSS.
- Greater Hyderabad Municipal Corporation to use geoinformation system
- Green Urban Data – Environmental Intelligence
- Global Observation on Delta and Estuary
- Google Earth Engine 101: Analyzing 30+ petabytes of Earth observation data, for absolute beginners
- Introductory Training on Earth Observation (EO) and Geospatial Information Technology
- Is there a commercial market for Keyhole-class imagery like Trump tweeted
- Jason-2 altimetry satellite decommissioned after more than 11 years of ocean monitoring
- Large Iceberg Breaks Away From Antarctica in 'Calving' Event, Not Due to Climate Change
- Largest ever Arctic expedition
- Local and Regional Governments Present SDG Initiatives at Second Forum
- Military turns to private sector for rapid space innovation
- New and Expanded Capabilities for OceanFinder
- New partnership harnesses Earth imaging for climate action
- NSA Initiates Cybersecurity Directorate
- Ocean-monitoring satellite mission ends after 11 successful years
- OSS receives order for AI-powered satellite signal regeneration system
- Pecora Award Honors Excellence in Earth Observation
- Purdue trustees approve faculty appointments
- Presentation explores what space has done for us
- Real-time video streaming from space
- Real-Time ISR as Key Element for Effective Decision-Making
- Remote Sensing Satellites Market
- Registration for the EU Space Week 2019 is now open
- Role of **Geo-Information** in the Future
- Satellite images show toxic air sweeping across North India as farm fires rage
- Satellite-Based Earth Observation Market Extensive Growth Opportunities to Be Witnessed by 2014
- Satellite Data Record Shows Climate Change's Impact on Fires
- Scientists Propose New Satellite Tech to Dodge Space Junk from Megaconstellations
- Simera Sense and Sen to collaborate on real-time video streaming from space
- Solution for Resource Industries?
- Sources of climate science
- Space Oscars 2019 in Helsinki
- Spire Raises \$40 million for Analytics Products and Asia-Pacific Market
- Taken to task on climate risks
- Typhoon Hagibis: follow significant wave height & sea surface temperature [>Read More](#)
- The 2019 Arctic summer sea ice extent minimum was one of the lowest on record [>Read More](#)
- The potential offered by synergies between EGNSS (Galileo and EGNOS) and the Copernicus Earth observation programme were also explored at the InterGEO conference.
- Ursa Space
- Using Balloons to Track Pollution into the Stratosphere
- Using earth observation satellites to explore forest dynamics across large areas
- Using Open Space Data in Developing Countries
- Vake | Catch Wins 2019 ESA Space App Camp
- Visit the Copernicus Incubation website: € 50.000 to boost your start-up
- Visit the Copernicus Accelerator website: 12 months of guidance, training & bootcamps
- What on Earth (monitoring) can Copernicus do for me?
- 8th International Conference on Sustainable Solid Waste Management
- 10 European startups tackling natural disasters and other emergencies
- WMO calls to protect radio frequencies allocated to Earth observation services
