

eoSCAN (September 2017)

Market Watch "at glance"

September 2017

Market

- Airbus to reshape Earth observation market with its Pleiades Neo constellation
 - Antrix to exploit local market for Isro map data
 - Belarusian Geoinformation Systems now part of PanGeo Alliance
 - BlackSky taps Thales Alenia to build constellation of 60 fast-revisit EO satellites
 - BlackSky and NGA kick off GEOINT broker platform program
 - Canadian startup uses satellite imagery to disrupt roofing industry
 - Companies Create World-Class Small Satellite Production Company to Build BlackSky Constellation
 - CSIRO takes 10% stake in NovaSAR satellite project
 - DigitalGlobe delivers WorldView-4 HR satellite imagery to power PSMA Australia's continent-scale mapping initiative
 - Europe plans Sentinel satellite expansion
 - IAI sees growing demand for high-resolution imaging smallsats
 - From selling data to selling answers, EO market faces transformation
 - Global Hyperspectral **Remote Sensing** Market: Growth Scenario and Market Perspective
 - Growing new EO data markets will require user-friendly approaches, say executives
 - NTT DATA and DigitalGlobe Extend Strategic Partnership to Use the DigitalGlobe GBDX Platform to Create AW3D Vector Building Models
 - Pentagon's DIUx unit looks for persistent imagery, small rockets and broadband networks
 - SkyWatch to Improve Access to EO Data with EarthCache
 - Seraphim Space Fund closes at \$91M, invests in US, Finnish geospatial satellite companies
 - Spaceflight, Thales Alenia Space to jointly develop BlackSky geospatial-imagery satellites
 - SSTL announces NovaSAR-S data deal with Australia's CSIRO
 - The PanGeo Alliance welcomes a new member and celebrates 3 years of achievements
 - Thales, Telespazio and Spaceflight team up to accelerate BlackSky Geospatial Platform
 - UrtheCast Wins Contract to Deliver Dual-Frequency SAR Satellite
-
- DigitalGlobe Announces Results for SpaceNet Challenge Round 2
 - Ecometrica lifts profits as governments harness data
 - Geospatial Imagery Analytics Market Worth \$13.21 Billion by 2022
 - Global Remote Sensing Satellite Market Become Dominant At CAGR Of 5.59% By 2021
 - Global **Remote Sensing** Market 2017 Covering USA, **Europe**, China, Japan, India, South East Asia
 - Global Satellite-based **Earth Observation** Market Trends, Challenges And Growth Drivers Analysis
 - Global Remote Sensing Market Report Size, Share, Growth and Forecast 2017
 - Global and Asia-Pacific Earth Observation Satellite Market 2017
 - Global Hyperspectral Remote Sensing Market 2017- Corning Incorporated, ITRES, Resonon and Headwall
 - Global Off-grid Power Systems for **Remote Sensing** Market 2017 – Acumentrics, Ensol Systems, HES
 - Global **Earth Observation** Satellite Market till 2022: Drivers, Challenges and Opportunities
 - Harris Corporation (NYSE:HRS) Traded 5.0% Above Its 50 Day Moving Average
 - In-depth Research & Forecast of Market on "Microsatellite Market" from 2017 to 2022- Research
 - Low-Cost Satellite Market to Grow at CAGR of 6.54 % Key to Overall Growth: Global Market
 - New constellation to reshape Earth observation market
 - NSR Analysis Reveals Since 2000, Nearly 400 Space Companies Have Debuted
 - 2017 Global Hyperspectral Remote Sensing Market By Top 5 Manufacturers
-
- BlackSky awarded contract by Air Force for next-generation Geospatial Intelligence Brokering Platform
 - Iceye raises \$13 million for radar microsatellites
 - SPACEMETRIC awarded 1M\$ contract extension with Armed Forces
 - Teledyne e2v sensors will play a vital role in ESA's FLEX satellite mission to study plant health and stress from space
 - UrtheCast Wins Contract to Deliver Dual-Frequency SAR Satellite

- ADB, Afghanistan Launch New GIS Policies to Improve Geospatial Data
 - Australia relies on data from **Earth observation** satellites, but our access is high risk. Collecting satellite data Australia wants: a new direction for **Earth observation**
 - Australian government promises national space agency. Australia to create national space agency.
 - Bangladesh Agricultural Research Council and Partners to Collaborate on Strengthening Climate Services for Drought Monitoring
 - CSIRO's Data61 and Radiant.**Earth** team up to improve disaster resilience from space
 - CSIRO invests in one of the world's most sophisticated satellites
 - Digital Earth Australia: Big Data for a Big Country
 - Experts set to meet in Kenya on space science
 - Europe plans Sentinel satellite expansion
 - EUMETSAT and Arianespace sign contract for the launch of the first MetOp-SG satellites
 - FG agencies shun Nigeria's satellites
 - India, Afghanistan to Cooperate in Space Technology
 - India needs 75 new satellites in next 4 years: Isro scientist
 - India, Japan to work together on climate change
 - Latvia has invested EUR 3.2 million in space exploration projects
 - Morocco's High-Resolution Earth Observation Satellite to be Launched by Arianespace
 - NGA & NRO Leaderboard compares agency's needs with industry capabilities
 - Satellite Data Exchange Deal Signed 'Tween Vietnam and Japan
 - SAS makes first ever voice call has been made using its nano-satellite technology
 - SI Imaging and URSA Space Systems Now Enjoy a Geospatial Relationship
 - Space Cooperation Between China, Russia Needs Long-Term Mechanism
 - Spacewatch: twin research satellites head for burn-out
 - UK prepared to pay around £1bn to remain part of Horizon 2020
 - UNITAR, UNOOSA Collaborate on SDGs, WMO Builds Climate Prediction Capacity
 - UNOOSA Announces the Third Round Open for JAXA KiboCUBE Initiative and SNC is a Partner
 - Vega to launch two earth observation satellites for Italy, Israel and France
 - Will Taiwan satellite industry ever take off?
-
- Arianespace to Launch Italian Cosmo-SkyMed Satellites
 - Internet of Things startup Helios Wire raises \$4 million for satellites
 - Global Hyperspectral **Remote Sensing** Market 2017- SPECIM, Resonon, Headwall, Corning
 - Jena-Optronik GmbH receives "Supplier Excellence Award" by Space System Loral
 - Maritime VSAT Market to Grow at 13.74 %: Global Key Market Trends, Key Players Analysis
 - NASA Airborne Mission Returns to Africa to Study Smoke, Clouds
 - Off-grid Power Systems For **Remote Sensing** Market Present Scenario And The Growth Prospects
 - Phones and drones transforming healthcare
 - Technology Companies Partner to Improve Disaster Resilience
 - Thales, Telespazio and Spaceflight team up to accelerate BlackSky Geospatial Platform
 - The Intelligence Everyone Can See
 - The Space Alliance Invests in the BlackSky Geospatial Platform
